

ISRA World Meeting Schedule for Friday, July 28

8:00 AM	Plenary Speaker: Emil Cocarro Title of Plenary Address: Biology and Treatment of Impulsive Aggressive Behavior in Humans		
BREAK			
9:15	Symposium FA-1 Chair: S. Van Goozen Neuropsychology of Aggression, Violence, and Psychopathy	Symposium FA-2 Chair: J. J. McComas Systematic analysis and treatment of social-environmental influences on aggression of a typically developing child, a child with a psychiatric disorder, and a child with a neuro-developmental disorder	Symposium FA-3 Chairs: N. Simon & C.F.. Ferris Recent Discoveries in Vasopressin Neurobiology and Aggressive Behavior
	<i>J. Seguin, P. Sylvers & S. Lilienfeld</i> The neuropsychology of violence	<i>J. McComas, T. Kopelman, M. Lind, & B.</i> Evaluation and treatment of aggressive behaviors maintained by social and nonsocial reinforcement.	<i>H.E. Albers</i> Vasopressin and Individual Differences in Social Behavior.
9:40	<i>S. Van Goozen, G. Fairchild & I. Goodyer</i> Evidence for specific neuropsychological impairments in children and adolescents with severe antisocial behavior	<i>J. Hoch, J. J. McComas, & F. J. Symons</i> Systematic direct observation-based analysis of aggressive behavior of a typically developing 11 year old girl	<i>C.F. Ferris</i> Imaging the Neural Circuitry and Neurochemical Control of Offensive Aggression Using fMRI and 3D Computational Analysis.
10:05	<i>J. Van Honk</i> Cortical, Subcortical, and Subcortico-Cortical Contributions to Human Social Aggression	<i>L. Johnson, J. J. McComas, & F. J</i> Functional Analysis and Treatment of Aggression of a Child with Autism Toward his Infant Sibling	<i>R.H. Melloni Jr.</i> Adolescent Drug Abuse, Vasopressin and Aggression: Divergent Drugs Yet Convergent Paths to the Development of the Aggressive Phenotype.
BREAK			
10:40	<i>J. Blair, A. Marsh, D. Mitchell & E. Finger</i> The neural correlates of deficits in fear expression processing and response reversal in children with psychopathic tendencies: Early fMRI data Discussant: Adrian Raine	Paper Session FA-2 Chair TBA Bullies and bullying, in and out of prison <i>D. Heim & S.C. Hunter, C. J. Howe, K. Durkin, & D. Bergin</i> Bullying, social identification and coping	<i>N.G. Simon</i> Orally Active Vasopressin V1a Receptor Antagonist, SRX251, Selectively Blocks Aggressive Behavior
11:05	Paper Session FA-1 Chair TBA Topographies of aggression <i>P. Verbeek., T. Iwamoto, & N. Murakami</i> Individual differences in gill-cover erection among wild type and domesticated fighting fish males offer insight into biological bases of aggression	<i>J. Archer, J. L. Ireland, & C. L. Power</i> Differences between bullies and victims, and men and women, on aggression-related variables among prisoners	
11:30	<i>A R Marques & C Neto</i> Differences between play fighting and real fighting as a function of children's age, gender and status	<i>M. Tahir</i> A study exploring the attitudes of the prison guards towards inmates in Pakistani prisons	
12:00	GRANTS WORKSHOP (Lunch Included)		
2:30	FREE AFTERNOON		
8:00	BANQUET XVII: WABASHA CAVES, ST. PAUL
